

ASSEMBLY TECHNICIAN

COMPANY HISTORY

Power/mation is a nationally recognized distributor specializing in advanced automation hardware and software products. We help our customers improve their manufacturing processes by assisting them in the application of unique automation solutions in the following technology areas: motion control, logic control, software, sensors, vision, safety, power transmission, panel components and services.

Power/mation began in 1961 and has grown to locations within Minnesota, Wisconsin, Illinois, Iowa, Nebraska and the Dakotas. For more information, please visit our web site at www.powermation.com.

DUTIES

The Assembly Technician works with the Solutions staff to successfully produce assemblies, electrical control sub-assemblies, modification of components, and part kits. Must be a self-starter, motivated and driven.

EDUCATION AND EXPERIENCE

High school diploma or equivalent, plus two year electronic technical degree/certificate preferred. At least one year electronic experience required. Experience in packaging/palletizing and forklift are a plus. Metal handling, cutting and shearing experience are a plus.

KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of basic electronic theory in order to answer technical questions.
- Knowledge of inventory procedures and record keeping.
- Verbal and written communication skills in order to interface with customers, vendors, and company personnel.
- Ability to read from and interpret schematics, blueprints, and technical manuals in order to provide technical assistance.
- Ability to operate test equipment in order to perform required test on electrical and electronic products.
- Ability to work well under pressure and handle multiple and changing priorities in order to complete assigned tasks and meet customer requirements.
- Basic understanding of electrical systems.
